Who We are

Since 2015, The Conveyancing Foundation has been the conveyancing profession's leading not for profit registered charity with the mission of enhancing the lives of those in the property industry. Over the past 10 years we have proudly raised over £1.2 million for charity, with every penny donated to worthy charities, community projects or charitable causes. Through our dedicated efforts and the support of our wonderful charity partners, we continue to make a meaningful difference in the lives of those we serve.

Through initiatives like the Charity Lotto and Grant Schemes, we strive to uplift both individuals and communities, supported by our wonderful charity partners. Central to our mission is the 'Be Kind We Care' ethos, promoting kindness and collaboration within the industry.

We actively contribute to the improvement of our profession through our work on defining and advocating best practice within the conveyancing process but also providing guidance and initiatives for firms to be able to best support and nurture their staff – all to the benefit of our profession.

Our Charity Grant Scheme provides vital financial assistance to charities and community projects as chosen by those within our profession, while our new Mental Health Champion Course equips staff and businesses with the essential skills to support their mental health and cope with the pressures of our profession and the stresses in our personal lives.

Through these efforts, we remain dedicated to serving and enhancing the lives of those in the property industry, advocating for compassion, collaboration, charity and community.

“ We are delighted to be involved with the Conveyancing Foundation Charity Lotto which our clients regularly comment on as being a great initiative. We are thankful to them for their eagerness to take part. Over the past few years their donations have helped a number of charities dealing with homelessness, cancer, mental health, providing support to victims of domestic abuse and food banks across Northern Ireland. ”
